By utilizing state of the art controls and servo driven assemblies, Merlin is a revolution in strapping equipment. Merlin’s industry leading design comes from meticulous consideration of “old school industry proven design” matched with new high technology components and features. At first glance Merlin may appear similar to other equipment in the industry. Merlin was painstakingly designed to remove all the troublesome, high maintenance areas seen in all other strapping machines today. Merlin is a highly advanced strapping machine that is simple to operate and maintain. While it might seem to be magic to some, it is really only our commitment to offering the best machine, and the best features delivering the best performance to our customers.

Merlin Corrugated Features:
- Auto Strap load for operator convenience and safety
- Loop eject avoids strap jamming
- Heavy-Duty Handle and Casters for ease of mobility
- Movable control module for ergonomic operation
- Jam-Resistant technology
- Lubrication Free
- Trouble Alarm

Where did all the complexity go?

Also available as a Standard Table Top Model

GERRARD-OVALSTRAPPING
www.goval.com
Features:

- **Servo Driven Component Design** delivers 35% fewer parts than most competitive machines. This ensures reduced parts wear and provides for minimal machine adjustments delivering industry leading, reliability, durability and maximum up-time.

- **Dual Rodless Hard Bar Compactor**

- **Electronic, Torque Monitored, Tension System** provides consistent tension, terrific high tension capability delivering exceptional package integrity and industry leading low tension capability to eliminate package damage.

- **Runs 5mm, 6mm, 9mm & 12mm** strapping material.

- **Plug & Play** design easily allows you to upgrade to automated options as you need them. This ensures Merlin meets the ongoing needs of your business. Merlin grows as you grow.

- **Runs Polypropylene and Polyester Strapping** material providing you the flexibility to match the right strap for your package or load.

- **Light Stack & Low Strap Warning Light**

- **Auto Correction** on mis-feed ensures maximum uptime.

- **Auto Eject** of strap when strap supply depleted ensures minimal downtime.

- **Simplified Operator Controls** provides exceptional ease of use.

- **Maximum Flexibility** for your specific production requirements.
